

EUCHNER SAFETY SERVICES

Consultation day

Our experienced machinery safety experts advise you on site about all relevant machinery safety topics.

We advise and assist our customers on topics including:

- ▶ Procedure for a CE process, as well as the requirements of Machinery Directive 2006/42/EC
- ▶ Review of machine documents relevant to CE
- ▶ Preparations for a risk assessment
- ▶ Verification of safety functions according to EN ISO 13849-1, and implementation in SISTEMA
- ▶ Explanation of EN ISO 13849-1
- ▶ Consultation on conversion and significant modification to machines
- ▶ Consultation on linking of machines and machine installations

Advantages for the customer

- ▶ Topics are tailored to the customer's needs
- ▶ Questions can be addressed on an individual basis
- ▶ Consultation is provided at the customer's premises

Services for the customer

- ▶ We offer a consultation day adapted to the customer's requirements. It is available for a fixed price or an hourly rate
